FAITH VS. SCIENCE (PAPERBACK)

First Edition Design eBook Publishing, United States, 2012. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.This is not a book on theology, nor is it a highly technical scientific analysis. It s really just a conversation-between me and a hypothetical, non-hostile unbeliever. My purpose is to help scientific people see that religion is not just for kooks and to help religious people see that science is not just for atheists. Persons skilled in debate will quickly notice that I have utilized a variety of methods to advance my arguments such as logic, rhetoric, presentation of scientific/experimental data, and even narrative. I realize this mixture of methods is in itself a fault and sometimes appears self-contradictory. However, keep in mind that this book is written in a conversational tone. In real life conversations, people utilize a variety of methods to make their points. That s what I m doing here-opening up a reasonable, educated conversation about God, science, and life itself in ways that work best for me.
