

# Gravity Manipulation and its Binary Nature

By Carlos Calvet

GRIN Verlag Jul 2007, 2007. Taschenbuch. Book Condition: Neu. 210x148x2 mm. This item is printed on demand - Print on Demand Neuware - Scientific Study from the year 2003 in the subject Physics - Theoretical Physics, printed single-sided, grade: -, University of Barcelona, 13 entries in the bibliography, language: English, abstract: By assigning the elementary Planck units to the units of Newton's Gravitational Constant (G), it resulted that G is actually a function of vacuum (zero point) energy (ZPE) and that it can be therefore manipulated. This paper cites and discusses some possible kinds of Gravity manipulation. ZPE appears to reduce gravity as it is inversely proportional to the gravitational force. From Coulomb's Constant, the Planck charge (qP) and the corresponding quantum vacuum (QV) lepton/photon ratio are calculated, the latter by dividing qP by the Planck mass. The QV-lepton/photon ratio is very different to the analogous baryon/photon ratio that is predicted by Standard Model, demonstrating that the QV and space-time are two different entities (e.g., that they have a different number of dimensions). A dimensional model for the QV that evolves from, and is supported by, the lepton/photon ratio is presented herein, together with emerging technologies. By expressing natural constants...

## Reviews

*Completely one of the best publications I actually have ever studied. I really could comprehend almost everything out of this written publication. Your daily life span will likely be changed as soon as you total reading this publication.*

-- Prof. Adolph Wisoky

*Here is the greatest publication I have studied till now. I was able to comprehend every thing using this written pdf. I am pleased to explain how here is the greatest pdf I have studied within my own lifestyle and might be the best pdf for ever.*
