Virtualbookworm.com Publishing, United States, 2008. Paperback. Book Condition: New. 226 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Tyree Johnson stands accused of first-degree murder in a South Carolina courtroom. His crime? Making love to his girlfriend after he had been diagnosed HIV-Positive. The defense, however, claims there is reasonable doubt that Tyree s diagnosis was wrong-that, according to numerous scientific studies, these so-called HIV tests are fraught with errors, and have been ever since their inventor, Dr. Robert Gallo, lied on his patent application. Furthermore, Tyree s lawyer argues that there is no scientific evidence that HIV is transmitted by heterosexual intercourse, and that Tyree s girlfriend died from taking lethal anti-retroviral drugs rather than from any HIV/AIDS illness. Ripped from the headlines of today s newspapers, Are You Positive? Raises serious questions about whether anyone has ever been properly diagnosed as HIV-positive, and whether most people today are dying from the HIV medications prescribed by their doctors.
