Not illustrated. 1822 Excerpt: . . . its exercise, demands the application of the mind, as well as the practice of the hand. The study of Dr. Holders treatise on the Principles of Harmony, Still in g6eets Remarks on the Works of Tartini, and Avisons Strictures on Musical Expression. --to say nothing of Dr. Walliss Ptolemy, or, the Five Greek writers on Music, collected by Aleibomias, --would enlarge aud refine gentlemens ideas respecting the profundity and compass, powers and elegance of the science of harmony and melody, and the art of giving effect in their performance. The study of music thus prosecuted would be found worthy of the highest intellects, and give the proficient, as a real musician, the same superiority over the mere fiddler, that the architect holds, in comparison, with the builder who works from his design. With what pleasure does the sedulous student in music learn that the proportions which...

Reviews

The very best publication i at any time read through. I actually have go through and i am confident that i am going to planning to read through once more once more down the road. I found out this ebook from my i and dad advised this publication to learn.

-- **Emie Wuckert**

A top quality ebook as well as the typeface used was interesting to see. It usually fails to charge an excessive amount of. Once you begin to read the book, it is extremely difficult to leave it before concluding.
